

The MAG-LED™ Technology Story

Owner and Founder
Anthony Maglica

Anthony Maglica, known for his obsession with precision engineering, craftsmanship and commitment to perfection, was not satisfied with the performance of a "regular" LED as a usable light source. Mr. Maglica set his sights on producing an LED light source that would have the kind of durability, reliability, and performance Maglite® flashlights are known for. With an emphasis on uncompromising performance, **MAG-LED™ Technology** is the result of that quest.

The benefits include:

- **A Powerful Projecting Beam** that focuses simply by rotating the head.
- **Balanced Optics™**, combining a highly refined reflector with a quality LED, for a brilliant adjustable beam.
- **Intelligent Energy Source Management** (patent pending) balancing high brightness with efficient power usage.

PLUS: All of the quality features professionals and consumers expect from a Mag® flashlight:

- Rugged, machined aluminum construction with knurled design.
- Anodized inside and out for improved corrosion resistance.
- Water and shock resistant.

Rotate head for powerful focusing beam.

Energy Management, Balanced Optics™, Projecting Beam

Interchangeable Light Sourcing - Use either the installed LED module or the Krypton lamp (stored in the tailcap).

PRODUCT DETAIL INFORMATION BLISTER PACKS:

2-Cell D Package Includes:
Maglite® LED 2-cell D Flashlight

3-Cell D Package Includes:
Maglite® LED 3-cell D Flashlight

4-Cell D Package Includes:
Maglite® LED 4-cell D Flashlight

2, 3, & 4 D-Cell Flashlights with **MAG-LED™ Technology** use a 3 watt LED*

3WATT LED™

Mag-Lite® LED D-Cell flashlights are also offered in a variety of colors (refer to color guide below).

The Maglite® flashlight, renowned for its quality, durability, and reliability, is now available with the new **MAG-LED™ Technology**.

Designed for professional and consumer use, Maglite® LED flashlights build on the experience in craftsmanship, engineering, and advanced technology evident in all Mag® flashlights. The Maglite® flashlight is internationally accepted as the Professional Flashlight®. Built tough enough to last a lifetime, its durability and patented features now combined with the new **MAG-LED™ Technology** make the Maglite® LED flashlight a technologically advanced lighting instrument. Available in 2, 3, & 4 Cell D size, the benefits include:

- **A Powerful Projecting Beam** that focuses simply by rotating the head.
- **Balanced Optics™**, combining a highly refined reflector with a quality LED, for a brilliant adjustable beam.
- **Intelligent Energy Source Management** (patent pending) balancing high brightness with efficient power usage.
- **Interchangeable Light Sourcing** - Use either the installed LED module or the Krypton lamp (stored in the tailcap).

LED Upgrade Module

LED Upgrade Module with **MAG-LED™** Technology uses a 3 watt LED*

Upgrade your existing 2, 3, & 4 C or D-Cell Maglite® flashlights to the new **MAG-LED™** Technology.

The benefits include:

- Intelligent Energy Source Management (patent pending) balancing high brightness with efficient power usage.
- Balanced Optics™, combining a highly refined reflector with a quality LED, for a brilliant adjustable beam.

The Maglite® LED Upgrade Modules are available for all 2, 3, & 4 Cell C & D size Maglite® flashlights. The kits are cell number/size specific i.e. 2 Cell, 3 Cell, 4 Cell and must be matched to a 2, 3, or 4 Cell Maglite® flashlight. Unlike "LED retrofits" that are not made or approved by Mag, these Upgrade Modules were engineered by Mag and are factory-authorized. Their use cannot adversely impact coverage under the Maglite® flashlight Limited Lifetime Warranty.

*As rated by supplier of LED.
Designed for use in Maglite® flashlights only. Flashlight not included.

Upgrading any C or D size Maglite® flashlight (2, 3, or 4 Cell) is as easy as 1, 2, 3.

- Step 1** Unscrew the Maglite® flashlight head assembly.
- Step 2** Unscrew the retaining collar and remove lamp.
- Step 3** Insert LED Module and replace retaining collar and head assembly.

Mini Maglite® AA-Cell LED

2 & 3 AA-Cell Flashlights with **MAG-LED™** Technology use a 3 watt LED*

The new Mini Maglite® LED is crafted after the legendary Mini Maglite® flashlight, an icon of classic American design, famous around the world. Built tough enough to last a lifetime, its durability and patented features are now available with the new **MAG-LED™** Technology. Whether you choose the super bright 2-Cell AA for its smaller size or the longer 3-Cell AA with its even higher performance, these technologically advanced lighting instruments are the ideal personal flashlights. The benefits include:

- **A Powerful Projecting Beam** that focuses simply by rotating the head.
- **Balanced Optics™**, combining a highly refined reflector with a quality LED, for a brilliant adjustable beam.
- **Intelligent Energy Source Management** (patent pending) balancing high brightness with efficient power usage.
- **Candle Mode** Unscrew flashlight head, place head down on stable flat surface and set flashlight barrel into head.
